Environmental Health and Safety
Training Confirmation Form

The purpose of this form is to document training for those individuals who opt to use electronic media for required safety training. Prior to using this form and viewing a specific safety training module contact Environmental Health and Safety at x2723 or x2250 to determine if this method of training is acceptable for compliance. Some training requires your physical presence and a live instructor. If electronic media training is acceptable for your training requirement, view the session at your leisure and complete this form. Mail form back to Environmental Health and Safety, Mail Mode 3930, via campus mail. The address is located at the bottom of this form, so if you wish, the form can be folded and taped and placed directly into the campus mail. It is important you understand that you are certifying you have viewed and understood the content of the training session. You are also encouraged to contact Environmental Health and Safety for any follow up questions you may have. Thank you for cooperation with this training requirement.

Steve Jacobs, Interim Director
Office of the Vice President for Research
Environmental Health and Safety

Your Last Name (Please Print): ___________________________________ First: _______________________

Your Department (Please Print): ___________________________________ Date: ______________

Title of Training Session: __________________________________________
